Forecast for Tuesday 11 Aug 2020

Weather: Heavy showers and isolated thunderstorms clearing the far northwest of the park around dawn. Then generally bright with sunny spells, but further heavy showers and thunderstorms may develop and merge into longer spells of rain at times through the morning. These showers will largely ease by the early afternoon, however there is the risk of a few isolated heavy showers or thunderstorms breaking out late afternoon and evening. Feeling very warm and humid too.

Chance of cloud free mountain/hill tops above 600m: Generally 90-100% throughout, but 30-40% chance in the morning, with cloud bases down to 300-400m on eastern peaks and summits.

Visibility: Generally good or very good throughout. Poor in low cloud and moderate in any heavy showers and thunderstorms.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

UV levels will be high, therefore extra care will be needed if spending any length of time on the peaks in the strong sunshine. Lightning will be an additional hazard in thunderstorms.

Recent rainfall: measured at Malham: altitude 375m

Forecast for Wednesday 12 Aug 2020

Weather: Cloudy, with heavy and thundery downpours overnight and into Wednesday morning. The showers are likely to ease during the morning, with bright or sunny spells developing. Into the afternoon, there is likely to be a mixture of sunny spells and scattered heavy showers and thunderstorms. Potential for slow-moving torrential downpours. Feeling very warm and humid too.

Maximum wind: East or southeasterly 5-10mph.

Chance of cloud free mountain/hill tops above 600m: Generally 100% throughout, but 30-40% chance in the morning, with cloud bases down to 300-400m on eastern peaks and summits. Possibly lowering to 500-600m briefly in any isolated heavy shower and thunderstorm during late-afternoon and evening.

Visibility: Generally good or very good throughout. Poor in low cloud early morning. Moderate or poor in heavy showers and thunderstorms during the afternoon.

Temperature: **Valleys:** Plus 19 Celsius, becoming Plus 26 Celsius.
At 600m: Plus 17 Celsius, becoming Plus 22 Celsius.
Freezing level: Above the summits.
